DISTINCTLY UNCOMMON

NEW YORK CENTRAL TAVERN LOUNGE CAR | Among the legendary trains that once crossed the United States, the grandest and most fabled of all was the *20th Century Limited* between New York and Chicago over the New York Central Railroad. This showcase operation with its celebrities, film stars and Royalty was the standard by which every other great train was judged and this continued well into the 1960's. In 1948, in Grand Central Station, a postwar *20th Century Limited* was inaugurated by Dwight Eisenhower and the actress Beatrice Lillie. Its greatest and most famous car was the round end of train Observation Car, the Hickory Creek, with a stepped down Observation Room featuring some of the biggest windows ever put in a train, a smart art deco interior and elegant furnishings. Happily this car has survived and now, lovingly restored, will be one of two vintage rail cars on this passage to Newfoundland. Along with Hickory Creek is a former New York Central running mate, a tavern lounge car with comfortable seating, authentic décor and a separate tavern area. With a welcoming staff and enticing amenities like mimosas, Afternoon Tea and smart cocktail hours, this car is as much a treat today as in the 1950's when it was assigned to crack trains like the *Pacemaker* and *Commodore Vanderbilt*. Only one company offers a holiday package this special, unique and distinctive – Uncommon Journeys.
